

Missouri Cybersecurity Conference

OCT 25, 2023

SERVING STATE OF MISSOURI CITIZENS THROUGH
CYBER SECURITY

Learn how the office of cyber security protects Missouri citizen data.

Hear from the managers of each cyber security team and the security protections each team provides:

- Security Infrastructure
- Security Operation Center
- Risk Management
- Disaster Recovery
- Identity Access Management

Get an overview of our Zero Day protection strategy

Learn about the state's cloud security as part of our digital modernization efforts

Hear real life use cases from our security vendors

Learn about our partnership with the Office of Homeland Security and cybersecurity grant funding opportunities.

Please register for in-person attendance as seating is limited.
